(PERMIT TERMS CONTINUED)

30240, Certificate 10046; 30241, Certificate 10047; 30242, Certificate 10048; 30253, Certificate 10229; 30849, Certificate 10057; 31288, 31289, 34766, 34767, 34768, 34769, 34770, 34771, 34772, 34773, 36020, 36021, 36022, 36023, 36024, 52941, 52942, 52943, 52944, 52945, 52946, 52947, 52948, 52949 and 52950 or any subsequent changes of the place of use of these rights.

The intent, in the interests of the best and most efficient management of the resource, is to substitute water from the dewatering of the pit area for water presently authorized to be withdrawn from the Boulder Flat Groundwater Basin under the above described permits.

Any water not used for mining and milling purposes may be utilized: to address water right impairment, if any, resulting from the diversion of water pursuant to the Barrick applications; to satisfy water use and water management requirements, if any, resulting from actions taken by other governmental agencies; to reinject or infiltrate water; to replace existing authorized groundwater withdrawals; and to serve other beneficial uses that would not adversely impact other water rights.

This water may be diverted to storage and/or discharge through the reservoir constructed under Dam Application J-320. Rights to place such water to use for consumptive purposes or non-consumptive purposes shall be provided under Primary Permit 55272 and any secondary permits issued thereunder.

Any water from this dewatering operation will not be discharged to any natural drainages unless specifically approved by the State Engineer.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies and is specifically issued subject to approval by the Nevada Division of Environmental Protection of the dewatering project.

The total combined consumptive duty of water under Permits 54926, 54927, 54928, 55138, 55139, 55140, 55142, 55143, 55145, 55146, 55148, 55149, 55150, 57217, 57218, 57219, 57222, 57223, 57224, 57225, 57226, 57227, 57228, 57229, 57230, 57231, 57232, 57233, 57234, 58354, 58355, 58469, 58470, 58471, 58472, 58473, 58474, 58475, 58476, 58543, 58544, 58545, 58546, 58547, 58938-T, 58939+T, 58940-T, 58941-T, 58942-T, 58943-T, 58944-T, 58945-T, 58969-T, 58970-T, 58971-T, 58972-T, 58973-T, 59195-T, 59684-T, 59685, 59686, 59687, 59688, 59689, 59690-T, 59691-T, 59692, 59693, 59694-T, 59695-T, 59696-T, 59697-T, 59698-T, 59860, 59861, 60565, 60566, 60787-T and 60789-T through 60804-T and 61248-T, inclusive will not exceed 11,733 acre-feet annually for mining and milling purposes.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

This temporary permit is subject to the "Boulder Valley Monitoring Plan" previously approved by the State Engineer on April 10, 1991.

This temporary permit is issued subject to, and also incorporates the terms and conditions set forth in the State Engineer's Order No. 1038, Order Adopting Rules For Well Spacing and Modification of Regulations For Water Well and Related Drilling (January, 1990) in the Northern Area of the Heretofore Designated Boulder Flat Ground Water Basin (4-61), dated March 29, 1991, on file in the office of the State Engineer.

The authorized uses under this temporary permit are subject to the terms and provisions of the "Stipulation, Settlement Agreement and Withdrawal of Protest" between Barrick, or its successors, and Eureka County, filed in the State Engineer's Office on November 7, 1994.

A monthly report will be submitted to the State Engineer within 10 days after the end of each month which shall include measurement of the volume of water pumped from each well, the volume of water consumptively used for mining purposes projectwide and the volume of water diverted to storage in the reservoir.

A year-end report will be submitted to the State Engineer no later than 45 days after the end of the calendar year. The report will state: (1) the number of wells drilled under the permits, (2) the number of abandoned wells, (3) the exact location of each well drilled or abandoned, and (4) a supporting map illustrating well locations.

The State Engineer retains the right at any time to require the permittee to cooperate in the funding of additional monitoring and modeling by an independent third party. The State Engineer retains the right to impose future conditions as necessary upon review and evaluation of all data submitted on the dewatering program, water use and the monitoring plan.

The State Engineer retains the right to regulate pumping from the dewatering project and/or any other groundwater withdrawals herein authorized to protect the public interest and existing rights.

(CONTINUED ON PAGE 3)

Barrick Goldstrike Mines Inc.
Temporary Application to Change Permit 55146

Remarks:

This is an application to change 5.0 cfs appropriated under "160 acre" block permit 55146 to a different "160 acre" block. The result will be to retain 5.0 cfs for the existing "160 acre" block under permit 55146 and to provide 5.0 cfs to a "new 160 acre" block permit which encompasses; the W 1/2 E 1/2 of the SE 1/4, and the E 1/2 W 1/2 of the SE 1/4 of Section 19, and the W 1/2 E 1/2 of the NE 1/4 and the E 1/2 W 1/2 of Section 30, T 36 N, R 50 E, MDB & M. The provisions of State Engineer Order No. 1038 will apply. It is noted that the "new 160 acre" block overlaps a portion of "160 acre" block permit 55140 and 55150. This is necessary to provide that the Point of Diversion described under this application be located on land controlled by Barrick Goldstrike Mines Inc. and to comply with order 1038 regarding location of a Point of Diversion at or near the center of an area not to exceed 160 acres:

The annual consumptive use will be 1,179,525,240 gallons.

. . . .

.

.

(PERMIT TERMS CONTINUED)

Upon permanent cessation of all mining, milling and dewatering purposes, all water granted under the permits will revert back to the source from which it was appropriated, except for any water requirements needed for any mine closure plan and/or to mitigate any adverse effects caused by dewatering.

All of the above stated conditions are issued subject to having no adverse

impacts on existing rights.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on June 15, 1996 at which time all rights herein granted shall revert to the right being changed by this temporary permit.
